Collection

500g faux rabbit fur high low pile pattern rug, high pile 1cm, low pile 0.5cm, felt + canvas backing, sewing edge

Pattern

For this quality, I have to explain that since these three pattern are not continually, the machine weave the fabric by roll, so we couldn't guarantee all rugs with same pattern. Factory cut the different size one by one from a roll fabric, all the rugs only come from one family, couldn't guarantee all rug with same pattern. It is workable with most of customer.
