Collection	500g polyester micro fiber pattern rug, pile high 1cm, felt + canvas backing, half serge edge		
Total weight	1300g/SQ.MT		
Pattern	For this quality, I have to explain that since these three pattern are not continually, the machine weave the fabric by roll, so we couldn't guarantee all rugs with same pattern. Factory cut the different size one by one from a roll fabric, all the rugs only come from one family, couldn't guarantee all rug with same pattern. It is workable with most of customers at present, is it workable with you?
